***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 86-104 are rejected under 35 U.S.C. 103(a) as being unpatentable over Curry in view of Pugh.

See the appropriate paragraph of the 12/1/03 Office action for the teachings of Curry in view of Pugh.

The cited prior art is silent to the claimed volume of sample tested.

The court decided In re Yount (80 USPQ 141) "... that mere size is not ordinarily a matter of invention....". Additionally, the court decided In re Rose (105 USPQ 237) "... the size of the article under consideration which is not ordinarily a matter of invention ...".

It is desirable when creating a personal test device to use as small of a sample size as possible to minimize the discomfort of the user while obtaining the sample. It would have been within the skill of the art to further modify Curry in view Pugh and use a sample volume between 0.1-0.5 microliters to gain the above advantages and as the size/volume is not ordinarily a matter of invention.

***Response to Arguments***

Applicant's arguments filed 4/9/07 have been fully considered but they are not persuasive.

Applicant's 10/23/06 amendments have overcome the 35 USC 112 second paragraph issues set forth in the 1/8/07 Office action.

Applicant states Curry and Pugh fail to teach any of the claimed features. The Office maintains the rejections meet all of the claimed limitations.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
